VOL. 12 NO. 10 | Lancaster Farming, Saturday, February 4, 1967 | $2 Per Year

More Beef Per Acre With Silage And Additives, Cattlemen Told

"You'll get nearly twice the pounds of beef per acre of crops raised when you feed an all corn silage, compared to an all grain ration," extension livestock specialist Lester Burdette told county cattle feeders Monday night at the season's second cattle meeting at Brecht School, Lancaster.

"Feed accounts for 65-75 percent of your total costs, excluding the initial cost of the feeder," Burdette told the cattlemen. He suggested that many feed additives could help reduce total feed costs.

"A stress feed, for instance, with antibiotics" He told of research on antibiotic feeds to calves after weaning, "Daily gains were nearly doubled and feed costs were lowered for treated calves," Burdette said

When cattle are shipped to your feedlot, Burdette reported, they are often under stress He recommended an eight-point program for getting them started properly.

1—Start off with either an injection of Vitamin A, or add it to the feed

2—Increase grain feeding slowly

3—Clean waterers and feed bunks

4—Sort and separate sick animals daily; don't put them back for at least 3-4 days

5—Isolate new cattle for 30 days

6—Supply clean, fresh wa-

Firms Slate 2nd Conference On Dairy Feb. 7th

Four firms actively serving Lancaster County's dairy industry have set February 7 as the date for a second dairy conference to be held at the Guernsey Sales Pavilion The first conference, held last year, was attended by some 500 dairymen

Allis-Chalmers, Curtiss Breeding Service, Inc, John W. Eshelman & Sons, and New Holland Supply Co, Inc. are the agricultural firms hosting this all-day informational meeting.

The program, scheduled to run from 9:45 a.m to 3:30 p.m. and from 7:30 to 10 p.m, will

Lanc. Extension Assn. Sets Date For Annual Meet

The annual dinner meeting of the Lancaster County Agricultural and Home Economics Association will be held February 14, at 6 30 p m, at the Dutch Town & Country Inn, Vintage, it was announced this week.

Guest speaker for the event will be Dr J. Kenneth Stern, president of the American Institute of Cooperation, Washington, D C. Stern is no stranger to Lancaster County, having served this area in cooperative activities some years ago

A brief business meeting is planned, including the election of five directors for three-year terms Progress reports will be presented by several members of the extension staff

Those interested in attending the dinner meeting are re

Diagnostic Lab. Plan Explored By Poultry Assn.

While county poultrymen may be located equidistantly between diagnostic laboratories at New Bolton Center and Camp Hill, directors of the Lancaster County Poultry Association seem to feel the situation is one more of distance than equality.

At a board meeting Thursday night at the Lancaster Farm Credit Building, directors said that Lancaster County's national prominence in the poultry industry warranted consideration of its problems at the state devel. Poultrymen can't afford half a day to take their sick birds to distant diagnostic laboratories, and even then have to wait several days for an answer to their problems, directors said.

"With the size flocks we manage these days, and the investment at stake, we can't waste that kind of time anymore. When we have disease problems, we need speedy solutions," one poultryman commented.

Several possible approaches to the matter of getting a di-

Crops & Soils Day Schedule Announced

The theme "Achieving Greater Yield Goals in '67" will set the tone for the Lancaster County Crops & Soils Day to be held next Friday, February 10, at the Guernsey Sales Pavilion.

In announcing the schedule this week for the annual event, associate county agent Arnold Lueck noted that the doors will open at 8:30 a.m., and that there will be displays and exhibits by agribusiness firms and dealers Lueck also said that a noon lunch would be available for approximately $1.25

Opening the program at 9:30 a.m., will be a talk on "Soybeans As A Crop For Lancaster County" by John Yocum, superintendent of the South-

Pa. Leads Nation In New Holstein Assn. Members

BRATTLEBORO, Vermont — Dairymen in Pennsylvania led the nation with the largest group of new memberships approved in the Holstein-Friesian Association of America Of 1,009 new names added to the national organization's roster, 200 came from Pennsylvania

Forty-four states were represented in the membership list approved by the Holstein board of directors at its year-end meeting in Cleveland, O Other front-running states were New York, with 183 new members, and Wisconsin with 98

Holstein Association membership entitles dairy cattle breeders to register and transfer their animals at reduced rates. They also qualify for voting privileges and can participate in breed improvement programs

The Association now has over 45,000 members, plus another 14,000 junior members who are enrolled in 4-H and FFA dairy projects with registered Holsteins

Holstein breed activities in Pennsylvania are conducted by county clubs in cooperation with the state organization headquartered at State College

NEPPCO Egg Film Fund Grows

TRENTON, NEW JERSEY— Over $7,000 from more than two dozen poultry firms has brought the NEPPCO Egg Film Fund close to its goal, but more money is still needed before production can start on the educational motion picture which will explain how egg prices are determined on the New York egg market, the industry association reported.

The film is to be produced in full color and sound. It will depict in dramatic and interesting fashion how egg prices

(Continued on Page 8)

"MR. AGRICULTURE IN PENNSYLVANIA", Leland H. Bull, left, secretary of the state's agriculture department, was the featured speaker Tuesday night at the 3rd annual Farm & Home Foundation meeting. Shown with the secretary is Foundation president B. Snavely Garber, Willow Street R2. L. F. Photo

Agriculture In Pa. Nears $Billion Mark, Sec. Bull Tells 3rd F & H Meeting

"Last year there were 15, or so, states in the nation with gross agricultural incomes over one billion dollars; with a break in the weather next year, Pennsylvania will rank among these agricultural giants," State Agriculture Secretary Leland H. Bull said Tuesday evening

Speaking to 183 members and friends of the Lancaster County Farm & Home Foundation at Meadow Hills Dining Room, the secretary said, "Pennsylvania's agricultural future looks bright; it is now part of the total program in Pennsylvania, and we're coming into our own"

OFFICIALS ELECTED

Five directors were reelected, and J Everett Kreider, Quarryville R1, and Harry K. Gerlach, Lancaster, were elected to first terms Reelected were Mrs Robert Nolt, Lancaster, John H Herr, Lancaster, Richard P Maule, Quarryville R2, E I Robertson, Lancaster, and Larry H. Skromme, Lancaster

Immediately following the meeting, directors named officers for 1967, reelecting B. Snavely Garber, president; Skromme, vice president; Mrs. Landis Myer, secretary Phares

(Continued on Page 4)

Weather

Temperatures for the next five days, Saturday through Wednesday, will average near the normal range of 39 to 23 degrees. The weatherman looks for the coldest part of the period over the weekend with milder periods late Sunday, and again Tuesday.

No significant snowfall is forecast, but precipitation may total ¼-inch, melted, occurring in the early part of next week.

Egg Marketing Talk To Be Featured Feb. 7 At Poultry Assn. Meeting

A panel of local egg marketing men will highlight the second in a series of three informational meetings next Tuesday night, February 7, at the Lititz Community Center.

Taking a "New Look At Egg Marketing" will be Melvin Mitchell and Art Lehman, both from Victor F. Weaver, Inc., New Holland; Raymond Sauder, R. W. Sauder, Lititz; and Earl Hess, Hess Bros. Farms, Inc., Ephrata.

Subjects to be discussed will include: egg breaking, new egg products, egg quality from a dealer's viewpoint, and outside competition.

Weekly Poultry Report

Eastern Pennsylvania And New Jersey
WEEKLY SUMMARY

LIVE HENS

Prices on light hens held unchanged in New Jersey, but declined ½c to occasionally ¾c in Eastern Pa Undertone unsettled due in part to lower ice-packed canner prices now being negotiated by further processors, and substantially increased offerings resulting from lower terminal egg market prices. Offerings ample for the fair and much less brisk buying interest this week. Offerings on heavy hens very limited with too few sales to report prices. Interest only fair as increased supplemental supplies from Delmarva, New England, and North Carolina are being shipped in Prices paid at farm Light Hens 6-7c, mostly 6½-7c, Heavy Hens, Too few sales to report prices

Fogelsville

January 31, 1967

(Prices paid dock weights, cents per pound, except where noted)

Hens, Light 6½-10, mostly 7; Hens, Heavy 7-22, mostly 13-18; Pullets 33-41, Roasters 11½-33, mostly 24-33; Ducks 13-28, mostly 18-24; Drakes 14-37, mostly 28-32; Turkeys, Hens 23½-30, mostly 25-30; Rabbits 10-45, mostly 35-40; Guineas 50-54; Pigeons (per pair) 90-147½, mostly 90-100; Jumbo Squab 90

Total coops sold: 599.

Eastern Shore Exchange
WEEKLY SUMMARY

Lot-average broiler and fryer live prices continued recent advances, gaining nearly 1¼ cents per lb. this week to average 17.65 cents

Prices paid followed the pattern of previous weeks, ranging steadily upward from a low of 15 8 cents on Monday to a high of 19 6 cents on Thursday.

In spite of increasing prices, sales also continued to climb, totaling 1 4 million head, a gain of 300,000 head over last week's sales

Farm & Home Center Approaches Reality

With each passing day, your Lancaster County Farm & Home Center edges a little closer to reality. According to building committee chairman Jacob Kurtz, Jr., the rough grading has been finished, and the basement excavation should be done by next week. Soon after that, the foundation will begin to take shape, and the rate of progress thereafter will be swift.

It was reported Tuesday night at the Farm & Home Foundation's 3rd annual meeting that cash on hand, investments, and unpaid pledges totaled very close to $300,000. It was also reported that the total cost of completing the Farm & Home Center is approaching one-half million dollars. In making this last announcement, fund drive co-chairman Levi H. Brubaker suggested that if that figure scared anyone it would be well to remember that gross agricultural income in Lancaster County in one year is more than 200 times greater than the amount which will be invested in the Center. And the Center will serve this community for many, many years.

It was also pointed out that the Foundation needs less than $1500 more to match a "challenge" gift of $25,000. If they don't match it then, of course, they don't receive the $25,000. But with your continued support we know the challenge will be met.

The directors and other supporters have worked tirelessly at the often thankless task of soliciting funds for construction of the Center. Their hope is to turn it over to the people of Lancaster County debt-free. Then, the income from rental of office space can be used entirely for maintenance of the facility instead of being used to meet large mortgage payments.

We have always believed wholeheartedly in this project to give Lancaster County a community center worthy of this great farming area. Countless other folks have believed also and supported it with their money and their efforts. Have you been a "believer"? If not, it's not too late. Become a believer now, and help push this project — so bravely begun — to a speedy completion.

★ ★ ★ ★

How Much Good Is A Woodchuck?

As you may have heard, that subterranean sage the Woodchuck emerged from his lair Thursday to give us his annual weather outlook. And, like most weather forecasters, you can take your pick — you want six more weeks of winter? According to the famed Punxsutawney Woodchuck Order, you've got it. And Lancaster County's own Quarryville Woodchuck confirmed his furry cousin's findings.

Or, would you like a little Instant Spring? Then, by all means, harken to the happy harbinger from Camp Hill. He came out of the ground, failed to see his shadow, and said Spring is just around the corner.

And there you have the basic difference between an optimist and a pessimist. The former looks the situation over, notes the favorable points, and renders his verdict accordingly. Meanwhile, the woodchuck with the gloomy outlook assesses the same set of facts and says, "Cheer up; things have got to get worse." So whom can you really believe these days? It's getting so that even the woodchucks can't seem to get their stories straight.

● Farm & Home

(Continued from Page 1)

Risser was elected treasurer, succeeding Noah W. Kreider.

FOOD PRICES—UP

Food prices in the future will go only one way—up, Secretary Bull predicted. He said that when they get too high, Washington will step-up agricultural imports in an effort to keep domestic prices down.

As food prices continue upward, the production of synthetic food products, and mixtures of synthetics and natural products, will also increase, Bull said.

Pennsylvania has a long way to go to expand its markets to meet the growing potential for Pennsylvania certified farm products, the secretary noted.

Speaking on natural resources, particularly water, he said, "In the future we'll have water almost as a public utility in the Susquehanna River Basin. We must keep our leadership informed on our water needs."

He called for tax relief on agricultural land, labeling it "a must if we are to stay in business."

The secretary outlined plans for expanding the Farm Show facilities, saying that funds had been requested for planning the new complex in the next two years. He said the first structure that will be built will be a two-storied building that will be partly on the road and partly on the present incinerator site.

He urged the Farm & Home members as leaders in Lancaster County to get acquainted with their legislators — of which 73 are new this year — and their congressmen. "You have got to sell your representatives on the value, and the need to promote, Pennsylvania agricultural products," Bull said.

In reporting on the financial condition of the Foundation, Noah Kreider told the farmers that cash on hand, investments, and unpaid pledges totaled $299,315. He said that less than $1500 more is needed to match the current $25,000 challenge gift.

Fund drive co-chairman Levi Brubaker told the audience that 'this (Farm & Home Center) has come to be a $500,000 project." He pointed out that this shouldn't scare anyone if they will stop to realize that it represents only about one-half percent of the $100,000,000 annual gross income of Lancaster County farms.

● Diagnostic Lab.

(Continued from Page 1)

agnostic laboratory located in Lancaster County were discussed.

It was decided that president John H. Hess would contact State Secretary of Agriculture Leland H. Bull to set up a meeting to further explore the problem.

In other business, Hess appointed committee chairmen and co-chairmen to serve the association this year. Appointed were:

Membership — Noah Gehman and John R. Huber, co-chairmen.

Tour — John Jacob Oberholtzer.

Banquet — Paul Hiestand and Claude H. Hess, co-chairmen.

Educational — J. Harold Esbenshade and Dr. Wilson Miller, co-chairmen.

Nominating — Daniel Good and Roy Erb, co-chairmen.

Publicity — Don Timmons.

● Egg Marketing

(Continued from Page 1)

Everyone interested in this vitally important subject to egg producers is urged to attend this meeting, according to program chairman J. Harold Esbenshade. Meeting time is 7:45 p.m., he noted.

The series is being sponsored by the Lancaster County Poultry Association in a continuing effort to help the county's $30-million poultry industry keep up with the many changes occurring in the industry. The final meeting in the series will be held February 28, and will feature information on "Financing", Esbenshade said.

SOLANCO CONSERVATION 4-H CLUB HAS ELECTION

by Darlene Hoover, reporter

The second meeting of the Solanco Soil and Water Conservation 4-H Club was held on January 30 at the home of Vincent Hoover. Leaders of the club are Vincent Hoover and Harry Troop.

A fifty-minute film was shown called "Conserve Our Heritage." Mr. Hoover then gave a demonstration on how soil was formed. Following the demonstration an election of officers was held. Elected as president was Steve Mitchell,

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY LAWRENCE W. ALTHOUSE

The False Peak

Lesson For February 5, 1967

Background Scripture: Luke 11 and 12.
Devotional Reading: Psalms 73:1-3, 21-26.

"In the realm of morals," says A.C. Craig, "there is only one thing harder than climbing up: it is climbing down from a false peak." To Jesus, Pharisaism was such a "false peak."

Rev. Althouse

Of course we immediately recognize the term "Pharisee." They were the villains of the New Testament, "the bad guys." Probably more than any other group, Jesus condemned these men and it is not at all difficult to understand why they hated him as they did.

Why did he judge them so harshly? These men, he said, were hypocrites. The Greek word hypocrisis means "to play a part on the stage." They gave the appearance of being highly moral, God-fearing men, but they were merely playing pious roles, pretending to be something they were not. Jesus called them hypocrites; today we would say they were religious fakers or "phonies." They really were not what they appeared to be.

Deceived Themselves

Not only did they deceive others, but, worst of all, they deceived even themselves. They not only pretended to be pious, but allowed themselves to be deceived into believing their own pretensions. Diligent in obedience to even the most minute requirements of the law, they fell victim to pride in their acheivements. They would no have put it this way, of course, but their attitude was very much like a man would say: "God's pretty lucky to have a nice fellow like me."

Thus, they reacted to Jesus in much the same way that the Duchess of Buckingham reacted to the preaching of the early Methodists:

Their doctrines are repulsive and strongly tinctured with impertinence and disrespect toward their superiors, in perpetually endeavoring to level all ranks, and to do away with all distinctions. It is monstrous to be told that you have a heart as sinful as the common wretches that crawl on the earth.

It is monstrous to be told that, yet it is precisely what Jesus came saying to the religiously respectable people of his own day. He called them to give up their hypocritical piety, to come down from their false peaks of self-respect. There are none of us too righteous to pray: "Lord, be merciful to me, a sinner." Our salvation is dependent, not upon our righteousness, but upon his gracious mercy.

Side Effect Of Virtue

Why all this interest in Pharisees? Why concern ourselves with something which is of little more than historical interest? The answer is that although the Pharisees of old are dead, Phariseeism is not. Hypocrisy did not end when the party of the Pharisees went out of existance. It continues as one of the prepetual dangers within the church today.

The basic problem of the Pharisees was not that their cause was evil — it had some of that finest objectives — but that it got side-tracked and detoured from its goals. Like a powerful medical drug that has unfortunate "side effects," Phariseeism has often led men into arrogant hypocrisy. Because they were deeply concerned with living righteous lives, because they therefore searched the scriptures diligently, these men became very proud of their moral acheivements. They failed to understand that the truly righteous man is the one who, in humility, realizes that he is not righteous, but a sinner in the sight of God.

Is this not still a danger in the twentieth century? Are we not in approximately the same position as the Pharisees of old: proud of our respectability? It is still easy to be dishonest about our lives, both with ourselves and others. There is still much play-acting among the religiously respectable today. Don't you ever need to climb down from such a false peak?

(Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

See Our Want Ads For Bargains

Now Is The Time . . .

By Max Smith, Lancaster County Agent

SMITH

To Beware Of Weed Seeds

The control of weeds costs our farmers and our home-owners millions of dollars annually. It is the feeling that some of this weed infestation is spread through the use of untested and unknown crop seeds. This is often true in the case of using home-grown grains and home-grown clover seeds. Pennsylvania law states that all seeds sold or offered for sale should have purity, weed content, and germination tests. This regulation should be respected if one is to use home grown seed. The use of certified seed is strongly recommended to all growers for best results.

To Control Parasites

Many farm animals may be carrying a heavy body lice infestation at this time of the year. The long hair coats make treatment more difficult. Lice infested animals are not comfortable and will not make the best use of their feed. Two treatments two weeks apart are recommended to eliminate these parasites. Cost of production will be lower without the body lice.

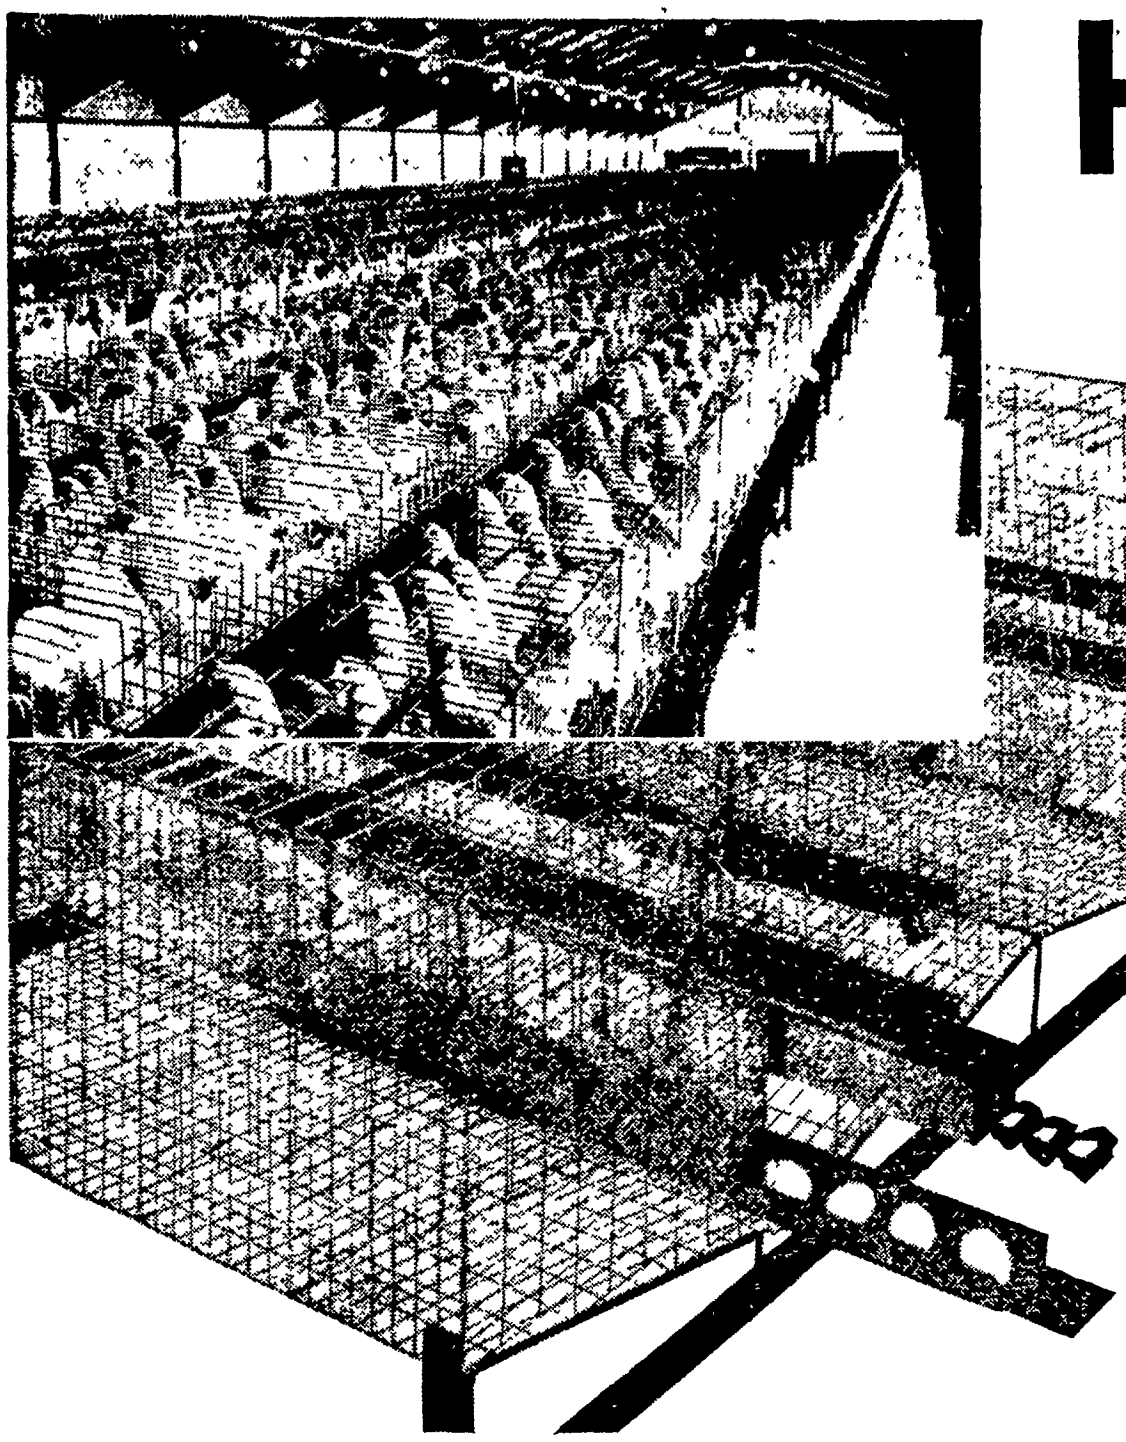
To Plan For Legume Broadcasting

It's not too early to be making plans for the early spring broadcasting of alfalfa or clover seeds in winter grain. If the broadcast method of seeding is to be used, then it is important to get the job done the last week in February or the first week in March. Early seeding will have a better chance for success. The seeds should be inoculated before seeding.

Of all the original forests in the United States, about ¼ are still standing, about ¼ have been used for fuel and buildings, and about ½ have been destroyed by fires or insects.

Experience is not so much what happens to you, as what you do with it.

HOLD YOUR PROFITS IN...



Big Dutchman®

CAGES

BIG DUTCHMAN COMPLETELY AUTOMATED FLAT DECK CAGE SYSTEMS . . . include automatic feeding; watering; central, one table, egg collecting from any number of birds; along with automatic manure removal equipment. The central, one table, automatic egg collecting system brings all eggs gently to one spot, enabling one person to easily collect from 25,000 birds. Egg collector is designed for easy connection to automatic washers, candler-graders and packers, for completely automated system.

Profit designed cages by Big Dutchman permit more effective ventilation and complete unobstructed lighting. Big Dutchman's automatic feeding system assures even distribution of feed to all birds. New degrees of flexibility and convenience are now possible along with exclusive features that permit greater feed savings and complete environmental control of more birds with less labor.

Big Dutchman, a pioneer in poultry house automation and in cage systems that have been widely imitated, but never duplicated . . . offer quality features and proven dependability in a cage system to fit your specific needs and operation.

AUTOMATIC OR HAND FEED TIERED CAGES . . . "It Costs No More To Own The Best." Find out today how you can begin obtaining increased profits from your poultry operation with the industry's best selection of a low investment, high production, Big Dutchman cage system to fit your plans or existing poultry house, large or small. Contact your local branch or write today for the very latest in Flat Deck or Tiered Cage information.

EASY FINANCING . . . details available on complete installment financing, tailored to your needs, through your nearby local branch.

● 25th Anniversary

(Continued from Page 6)

firm's 25th anniversary.

Daniel Good, Columbia R1, bought the 22-pound champion hen at auction at the recent Pennsylvania Poultry Federation banquet at Harrisburg with his bid of $10 a pound. (The 1967 Farm Show champion hen and tom were both entered by Harry Lamparter of Mountville, a perennial Farm Show turkey winner.)

After introducing all the guests, Good described how he got into the live poultry business 25 years ago. From 1938 to 1942, he said he had been farming and dressing chickens and turkeys for the local market.

"In 1942, we couldn't raise enough poultry for our needs, so I bought an old truck and began buying and hauling chickens from other growers."

Good began catering to the live market exclusively after 1945, and started selling to small dressing plants. Through trial and error, he soon discovered where the best markets were, and gradually began to supply larger buyers as well.

Today, that old original truck has grown to a fleet of six, including a tractor trailer which hauls Leghorn fowl to Vineland, New Jersey. Good buys poultry from some broiler contractors and from many independent growers. "We are proud to say," he added, "that at least 90 percent of our poultry comes from within a 50-mile radius of Lancaster."

Good's is a family operation which includes his wife and two sons—Lester and Daniel, Jr. In 1966, the firm handled a record volume of 21 million birds.

Another highlight of the evening was an illustrated '80 Days Around The World" talk by Adair County Turkey Grower Paul Osborn.

Keystone Hybrids

IS THE SMALL FLOCKOWNER GETTING HIS PULLET CHICKS AT THE SAME PRICE AS THE BIG "EGG FACTORY" OPERATOR?

WELL, USUALLY NOT.

BUT HE CAN IF HE ORDERS HIS CHICKS FROM US, BECAUSE WE CATER TO THE SMALL AND MIDDLE-SIZED POULTRYMEN.

And not only do we keep the price down, but we also give them a "top-notch" pullet that can perform with the best in the land, regardless of how high a price.

Our K-1700 Hybrids have been field-tested and entered in the Pa. Laying Test over the past two years and they came through with a very high performance.

Test a sample pen of K-1700 Hybrids against a pen of Hylines, DeKalbs, Babcocks, Shavers, Kimbers, Garbers, Ghostleys or any other pullets of your choice.

FIGURE for YOURSELF, THINK for YOURSELF and then make your OWN decision.

SUMMER SPECIAL

$15.00 PER 100 PULLET CHICKS

Free delivery, free debeaking and free dubbing. This special price is for chick orders to be delivered during the months of July, August, September and October, 1967, only.

During the daytime hours of 7:00 A.M. to 5:30 P.M. we have authorized Charles E. Sauder & Sons, Phone 445-3931, to accept chick orders by phone.

are determined in the New York egg market. Veteran egg market experts feel that such a film will go a long way to dispell many of the misconceptions producers and the general public now hold concerning the nation's most important egg market. When completed, it will be shown to viewers of TV farm programs; local, state and regional poultry producer groups, and to 4-H and FFA Clubs.

Film production and distribution costs have been estimated at $15,000. NEPPCO, acting through its Board of Directors, has pledged $5,000 of this amount. The balance, of which $7,000 has been raised, is to come from firms engaged in or dealing with the egg industry.

The following firms have contributed to date:

Agway, Inc., Syracuse, N.Y.; Allied Mills, Inc., Chicago, Ill.; Anderson Box Co., Indianapolis, Ind.; Arbor Acres Farm, Inc., Glastonbury, Conn.; Beacon Feeds, Inc., Cayuga, N.Y.; Central Conn. Co-op. Farmers Assn., Manchester, Conn.; Conn. Valley Egg Co., Inc., Deep River, Conn.; Continental Can Co., New York, N.Y.; DeKalb Agricultural Assn., Inc., DeKalb, Ill.; E C & W L Hopkins, Greenfield, N.H.; Food Fair Stores, Inc., Philadelphia, Pa.; The Fox Company, Newfield, N.J.; Gland-O-Lac Co., Omaha, Neb.; H. K. Webster Co., Lawrence, Mass.; Hubbard Farms, Inc., Walpole, N.H.; Kuhl Poultry Equipment Co., Flemington, N.J.; L M Sheaffer, Inc., Ephrata, Pa; M.B.O. Crop.-Colonial Farms, Freehold, N.J., New York Mercantile Exchange, New York, N.Y.; North American Poultry Co-op Assn., Inc., New York, N.Y.; Otto Niederer Sons, Inc., Pennington, N.J., Poplin Farms, Inc., Fremont, N.H.; Radio Bros., Inc., Medford, Mass.; Ralston Purina Co., Inc., St. Louis, Mo.; Southeastern Poultry & Egg Association, Decatur, Ga.; Seymour Foods Co., Topeka, Kansas; Urner Barry Publications, Jersey City, N.J.; Watt Publishing Co., Inc., Mt. Morris, Ill. and Whitmoyer Laboratories, Inc., Myerstown, Pa.

With only $3,000 left to be raised, the NEPPCO Office asks all firms who have not contributed to the fund to seriously consider making an investment. Contributions in any amount will be accepted. Checks should be made payable to "NEPPCO Egg Film Fund" and sent to NEPPCO, 10 Rutgers Place, Trenton, N.J. 08618.

LPS
A Liquid Protein Supplement

- 33% Protein
- Reduces Feed Costs
- Improves Phosphorus Balance
- Supplies Vitamins A and D

REMEMBER...

LPS is a true supplement. In LPS you buy only what you cannot grow on your own farm.

LPS reduces your cash outlay for feed.

LPS is an economical source of energy, protein, vitamins and minerals for dairy and beef cattle and for sheep.

LPS improves palatability of other feed stuffs.

LPS improves herd health.

LPS flows freely, even in subfreezing weather.

LPS repels flies and insects in warm weather.

LPS is easy to use, easy to feed.

LPS is safe to handle. It contains no alcohol.

(Continued from Page 1)

ter, salt and mineral — free-choice

7—Keep dogs and strangers out of the feedlots

8—Don't handle the animals any more than necessary

UREA

In discussing the advantages of using urea as a low-cost source of protein for steer feeds, Burdette said it should only be used with high energy rations. "It contains no energy, no vitamins, and no minerals," the livestock specialist noted, "but it can reduce your cost per pound of gain when compared to vegetable protein sources."

OYSTER SHELLS

Oyster shell as a roughage substitute in high energy rations has been getting a lot of attention in the press, Burdette said, but he noted that any research he had seen on the subject was disappointingly inconsistent.

In discussing minerals, Burdette said, "The salt block should be thrown out. Cattle don't get anywhere near their proper salt requirements from a block." He added that there is no one mineral mix that fits all situations.

Extension agronomist Dr John Baylor discussed the advantages of silage for beef cattle, and told the cattlemen how to get the most return for their silage dollar.

Harvesting silage at the proper time is important, Baylor said. He noted that immature corn silage will result in low quality feed, and that a well-formed ear contributes about 40 percent of the plant's feeding value. But, he cautioned, "corn can get too mature." He advised making silage when corn is in the full-dent stage. Waiting until full maturity reduces the amount of dry matter per acre, and can account for as much as one-sixth of the chop never reaching the silo

DOUBLE ROWS

"High population corn generally gives lower quality feed —if it can be harvested at all," Baylor said

Using the "double-row" planting system, the agronomist noted, can increase yields by 10-15 percent But the plants per acre must be increased to 25,000-35,000 The double rows should be spaced 6-7 feet apart, and plants should be 38-40 inches on center, Baylor suggested, noting that this system permitted better utilization of light than simple, high-density planting

"To get the best dollar value per acre," Baylor advised, "grow corn at the right population density for your operation, harvest it to yield a Total Digestible Nutrient (TDN) content of 70 percent, and supplement it as needed"

HAY SILAGE

In explaining low-moisture hay silage, Baylor told the cattle feeders that it involves less handling, yields more feed per acre, the animals like it better, it provides flexibility for storage, there is no seepage, it has a good odor, and it doesn't freeze

To produce low-moisture silage, the agronomist advised

1—Harvest for best yield at the bud stage

2—Use a hay conditioner

3—Wilt to 40-60 percent moisture

4—Chop as short and fine as possible

5—Use a covered wagon for hauling it

6—Fill silo rapidly

7—Store it in a tight silo

In response to a question on the best corn to use for silage, Baylor told the cattlemen that "The best corn for silage is also the best corn for grain It should be a hybrid that will reach the right stage of maturity at the time you want it"

● Crops & Soils

(Continued from Page 1)

eastern Field Research Farm.

At 9 45, George Berggren, extension agronomist will discuss "Weed Control Practices To Boost Crop Yields".

10:30 — James Eakin, chairman agronomy extension section, will handle discussion on four topics "Soil Testing Changes Coming", 'Soil Amendments", "Fertilizer Usage And Recommendations"; and "General Trends In The Industry"

1:30 — Lueck will present Corn Club and Hay Show awards

1 45 — Clarence Bryner, extension agronomist, "Getting The Most From An Acre Of Corn"

2:30 — Larry Click, extension agricultural engineer, "Handling and Storage Of Farm-Grown Feeds".

The program will conclude at approximately 3:30 p m. Lueck said.

HORNCO FEEDS ... The Growing Choice of Business Farmers

SIGNS of SUCCESS

All the time more and more successful poultrymen are displaying the sign "FED ON HORNCO FEED".

Why are they changing to Hornco? Because they like it.

They like the efficient results. They like the excellent service. They like the friendliness of a local company concerned with their personal problems.

HORNCO FEEDS

Should you be using Hornco Feed?

Why not check with your neighbor and then call us direct.

For the Farm Wife and Family

By Mrs. Richard C. Spence, Food Editor

Easy As Opening A Can . . . .

If you are as busy as most homemakers are, you are constantly grasping for ideas for easy meals Canned foods are the immediate solution. By combining several canned food items you can come up with some outstanding, tasty dishes And there is more variety now in the complete meal type of canned food

Convenient and complete as these combinations are, you may want to do more for your family than just open a can. Here are ideas for personalizing your meals and not one of them will add more than five minutes to the preparation time

MEAT BALL STEW IN DAISY BISCUIT

2 cans (15½-oz. each) meat ball stew
1 8-oz pkg refrigerated biscuits

Arrange biscuits around edge of 9-inch pie plate or shallow baking dish Spoon meat ball stew into center of biscuit ring Bake in a hot oven (425 degrees) for 15 minutes Serve hot to 5 people.

CORNED BEEF HASH WITH NIPPY CREOLE SAUCE

1 can (15½-oz.) corned beef hash
1 cup chili sauce
½ cup chopped green pepper
1 tablespoon minced onion
½ teaspoon horseradish

Heat corned beef hash in skillet. Combine remaining ingredients in a small saucepan and simmer 10 minutes. Serve hot over corned beef hash. Makes 2 to 3 servings.

* * * *

LIMA BEANS 'N HAM FILLED CABBAGE

2 cans (15½-oz ea.) lima beans 'n ham
1 large head cabbage

Slice off top of cabbage Hollow out center of cabbage, leaving ½ inch shell Use the cabbage removed for slaw at another meal. Cook hollowed cabbage in boiling salted water until just tender. Drain. Heat lima beans 'n ham according to label directions. Fill center of drained cabbage with lima beans. Serve by spooning beans n' ham onto plates. Cut cabbage into wedges to serve. Makes 6 servings.

* * * *

TASTY DRIED BEEF CASSEROLE

2½ ounce jar dried beef
2 tablespoons butter or margarine
2 tablespoons finely chopped onion
2 tablespoons finely chopped green pepper
10½ oz. can condensed cream of chicken soup
¾ soup can milk
¼ teaspoon pepper
¼ teaspoon paprika
4 oz. macaroni (1¼ cups, uncooked)
½ cup shredded sharp Cheddar cheese

Melt butter in a saucepan. Add onion and green pepper and cook until tender, about 5 minutes Cut dried beef with scissors into small pieces. Add to onion mixture and con-

tinue cooking until beef is lightly browned. Stir in soup, milk, pepper, and paprika. Heat to boiling Cook macaroni, as directed on package, using unsalted water. Drain, rinse with cold water, and drain again. Combine macaroni with dried beef sauce. Pour into a 1½ quart casserole. Sprinkle with cheese Bake uncovered in a moderate oven (350 degrees) 20 to 30 minutes 4 servings

OUTRIGGER SANDWICHES

- 2 cans (3 oz ea.) deviled ham
- 1 stick (½ cup) butter or margarine, softened
- 1 teaspoon prepared mustard
- 1 loaf French bread, split lengthwise
- 3 cups shredded cabbage
- 1 tablespoon sugar
- 1 tablespoon vinegar
- 1 teaspoon salt
- 1 teaspoon grated onion
- ⅓ cup mayonnaise
- Large whole sweet pickles

Mix butter and mustard. Spread evenly over cut surfaces of split French bread. Spread deviled ham over butter. Combine cabbage, sugar, vinegar, salt, onion, and mayonnaise Spread cabbage slaw over ham. Cut pickles lengthwise into thin slices. Insert a toothpick into each slice of pickle, then fasten pickles on edges of sandwiches to resemble paddles of an outrigger To serve, cut each outrigger sandwich into 4 to 6 wedges Serve open face Will serve 8 to 12 delighted youngsters!

BARBECUED PREM WITH CORN

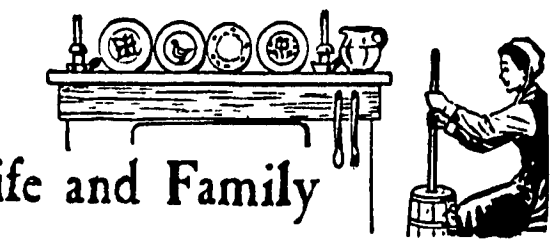
- 1 12 oz can Prem, Spam or your favorite canned meat
- 1 small onion, finely chopped
- 2 tablespoons green pepper, chopped
- 1 tablespoon vinegar
- 1 tablespoon Worcestershire sauce
- 1 teaspoon chili powder
- ¾ cup catsup
- ¾ cup water
- 1 pound can whole kernel corn, drained

Mix onion, green pepper, vinegar, Worcestershire sauce, chili powder, catsup, and water in a heavy skillet. Cover and simmer 15 minutes Place loaf of meat in the skillet with the sauce Simmer 15 minutes more, basting with sauce occasionally. Add corn to the skillet and simmer for 5 minutes Slice meat into 4 slices Serve with the corn to 4 people

BEAN 'N HAM CHOWDER

- 1 1 lb., 8 oz can lima beans 'n ham
- 1 11¼-oz can condensed green pea soup
- ¾ cup milk
- 1 tablespoon minced onion
- 1 10-oz pkg frozen broccoli spears, cooked

Combine lima beans and ham, soup, milk and onion Blend thoroughly and heat Place hot broccoli spears in soup bowls Pour hot "soup" over broccoli 4 servings.



For the Farm Wife and Family

Ladies, Have You Heard? . . .

By Doris Thomas, Extension Home Economist

THOMAS

Know And Follow Rules Of Safety

Every family member needs to know and practice the simple rules of safety Children need to learn at an early age that rules are important for safety of everyone

Make it a rule that children keep their hands inside before you close car doors and that they keep their hands inside the car while you're driving

Remind children to remain seated and fasten seat belts while car is moving And never permit children to stand either in the back or front of the car

You can teach a child how to handle a bicycle safely, then check that he knows the rules for courteous driving

Safety With Pesticides

Don't spray or dust a pet with a pesticide unless the product is labeled for such use This means you don't use a flea powder on your cat just because the label recommends it for dogs The product may be all right for dogs, but cats will lick it off as they clean themselves

Before buying a pesticide, read the label to find out on which animals you can use the pesticide safely And always

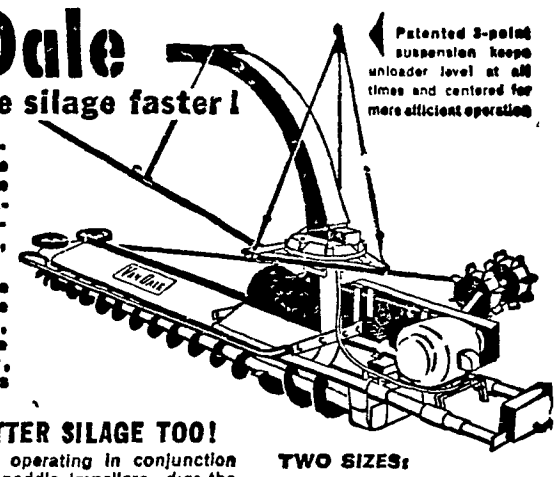
Get the BIG silo unloader value!

VanDale
Delivers more silage faster!

- Double auger system digs the silage faster and more evenly under all conditions whether silage is frozen, wet, or dry.
- Exclusive, adjustable drive hub gives more positive traction, keeps the machine operating evenly, and requires less power.



Patented 3-point suspension keeps unloader level at all times and centered for more efficient operation

DELIVERS BETTER SILAGE TOO!

The double augers, operating in conjunction with the patented V-paddle impellers, *digs* the silage, mixes it thoroughly, and then *throws* it down the chute. Your cows and cattle get good, palatable silage . . . not a powdered mash as is often happens with unloaders using blowers.

TWO SIZES:
Standard—for silos 10' to 16'
Heavy Duty—for silos 18' to 30'

4-H NEWS

4-H Pony Club Elects Officers

by Debra Gregory, reporter

Charles Risser was elected president of the Broken Bit 4-H Horse & Pony Club at their meeting recently at the home of Jerry Nessinger, Reinholds

Jerry Nessinger will serve as vice president; Bonnie Miller, secretary, Lois Enck, treasurer and Jo Ann Roether and Debra Gregory, news reporters.

Two new members joined the club Karen Risser and Jane Gregory

The horse show committee reported that the show date is set for May 7 1967.

Mrs Charles Risser, Sr., club leader, directed a quiz on horse management

Mr and Mrs Eugene Nessinger served refreshments.

The next meeting will be held February 17, 1967 at the home of Debra and Jane Gregory

FARM WOMEN NO. 26 MEET AT MANHEIM

The Society of Farm Women, Group No 26, met January 26 at the home of Mrs Clyde Buchen, Manheim R3, with society president Mrs Harold Esbenshade presiding

Following an inspirational reading by Mrs Roger Thome the group heard delegates report on the Society's state convention held in Harrisburg

Mrs Wallace Fisher of the Mental Retardation Center presented an informative program on "Getting Your Child Off To A Good Start".

The farm women voted to take a trip to the Flower Show and Plymouth Meeting Shopping Center on March 13th It was suggested that anyone interested in making the trip should contact Mrs Robert Summy at Manheim R1

FARM WOMEN NO. 3 HEAR ABOUT NIGERIAN FARMING

Dr Raymond Stayer, Denver talked to the Society of Farm Women Group 3 at a recent meeting of the society held in the Schoeneck Fire Hall

A dentist, Stayer spent ten weeks in Nigeria last year, and is on his way back there this weekend for seven more weeks He reported that a dentist is a rare sight in Nigeria and he felt the natives had appreciated his work

He showed slides depicting the interior of Nigeria, and described the farming practices observed there Stayer said that two acres of ground is sufficient to supply enough food for a Nigerian family They seem to thrive on corn meal mush made from guinea corn, the dentist said Peanuts are raised, but primarily for export

The farm women also heard reports on the state convention which the society held at Harrisburg during the Farm Show

On February 16, societies 3 and 4 will take treats to the guests at the County Home at Lancaster

Contributions were made to the Lancaster County Society for Crippled Children, and to the Mental Health Association

The next regular Group 3 meeting will be on February 18 at the home of Mrs Earl Smoker, Stevens R1.

CENTRAL TRACTOR CLUB SEES 2 DEMONSTRATIONS

by Lynn Royer, reporter

On January 31, the Lancaster County Central 4-H Tractor Club held its third meeting at the L H. Brubaker Farm Equipment Store, Lititz

Following a film on Farm Tractor Safety, members saw two demonstrations: "A Dust Explosion", by Eddie Hess and Gary Dean, both Strasburg R1; and "Transmission Oil," by Dudley Rohrer and Jerry Kilheffer, both Manheim R1.

The next meeting will be at the L H Brubaker Farm Equipment Store, Route 896, Strasburg

Top Yields of Forage with
PIONEER® SEED
Alfalfa
Sorghum
Sorghum-Sudangrass
Hybrids

Pioneer offers you 6 outstanding alfalfas . . . each bred to fit specific needs. They'll help you get the most from each acre.

Pioneer brand forage sorghums 931 and 950 stand out as the New Generation in sorghums —proved in several official state tests. Fill your silo on an amazingly few acres.

If sorghum-sudangrass hybrids fit into your plans, plant Pioneer variety 985. It's bred for fast starts and quick regrowth.

Take the first step toward top yields of forage; order the seed you'll need when your salesman calls.

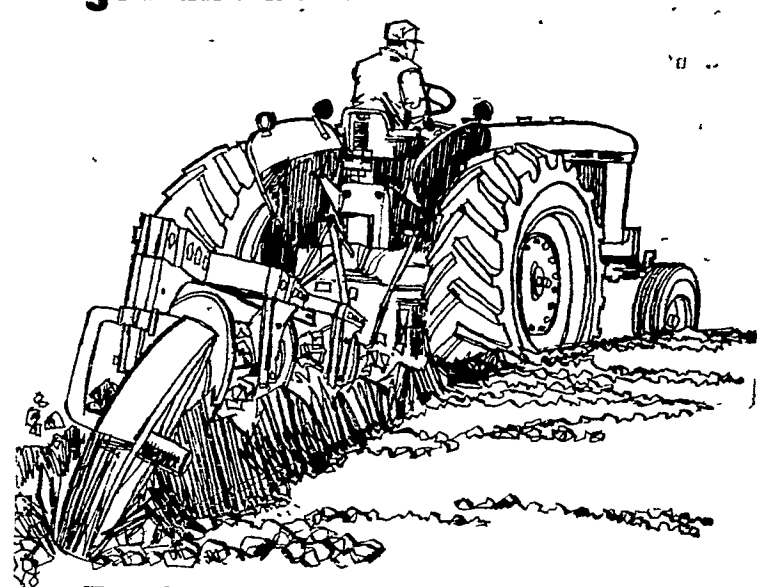
GET YOUR TRACTOR READY FOR SPRING NOW and SAVE

You'll be busy later on, and so will we. That's why we offer special off-season service now. That's why you can SAVE TIME . . . SAVE MONEY, if you avoid the last minute rush. We have specially trained mechanics and special service tools, using only genuine parts, to assure you a satisfactory job.

ALLEN H. MATZ
Denver — New Holland

Pick a John Deere 1020 or 2020 to work integral tools, get this bonus...



Draft-link sensing— with selective response-control to match job and conditions

Integral tools are pulled by the lower links, so they "feel" the changes in soil conditions first and fully. That's why "1020" and "2020" Tractors hydraulically "sense" load changes through the draft links. But not all conditions call for the same sensing response, so John Deere provides three response selections: LOAD—automatically adjusts depth to maintain constant draft load. LOAD-DEPTH—automatically provides weight transfer as needed. And DEPTH—maintains tool depth you set through thick and thin. Be our guest for an on-your-farm test of "1020" or "2020" selective response. Credit? Of course.

Grangers Hear Scott; Pass Three Resolutions

Lancaster County Pomona Grange #71 held a dinner meeting last Saturday at the Rhoads Spanish Restaurant, Quarryville; more than fifty members attended. Pomona Master, Charles G. McSparran, of Quarryville, conducted the business meeting.

The speaker of the evening was the Master of the Pennsylvania State Grange, John W. Scott. His subject was "What Contribution Can The Grange Make To Society Today." He spoke of the Grange's leadership in legislation, community service, education, fraternalism and patriotism. He also told of the value of good ritualism in the Grange.

Miss Helen Wanner, Lecturer, of Salisbury Grange conducted a memorial service for members who died during the year. The service included Opening Thought by Miss Wanner; Group singing "My Faith Looks Up To Thee"; Master McSparran and Chaplain Joseph Hess gave brief remarks. The altar was decorated in memory of Mrs. Laura B. Stubbs, E. Maurice Gregg, John S. Trimble and Mrs. Maude A. Christie by the Graces, Mrs. J. Collins McSparran, Mrs. Loran Brinton and Mrs. Chester Eby Scripture reading by Alfred Wanner Jr. followed by a poem read by Mrs. Alfred Wanner Sr.

The resolution committee consisting of Richard Maule, Theodore Beck and Chester Eby, presented the following resolutions which were adopted:

1. WHEREAS, There is a tendency on the part of some of the doctors and surgeons in Lancaster County to charge fees in excess of the rates covered by most health insurance plans And WHEREAS, We consider this practice to be both unfair and unethical. Be it RESOLVED, That Lancaster County Pomona Grange #71 go on record as opposing such practice and ask that said practice be discontinued.

OPPOSE MARKETWIDE MILK POOL

2 WHEREAS, The dairymen of Lancaster County have enjoyed a better price for milk under Marketing Order #4 by meeting certain sanitary requirements and keeping production in line with utilization And WHEREAS, The U S. Department of Agriculture's plan to change Marketing Order #4 to a market-wide pool would flood the market with surplus milk from New York causing a loss to Lancaster County dairymen of thousands of dollars. And WHEREAS, Said change would result in many farmers being forced to go out of the dairy business and seek a more lucrative enterprise. And WHEREAS, The consumer would not profit by the change but would be getting milk not produced under the strict sanitary requirements as enforced in the Philadelphia area Be it RESOLVED, That Lancaster County Pomona Grange #71 go on record as opposing the change of Marketing Order #4 to a market-wide pool

NO CONSTITUTIONAL CONVENTION

3 WHEREAS, There is now in the process of passing the General Assembly a proposal to call a convention to rewrite parts of the State Constitution WHEREAS, There is now ample provisions to amend the constitution by the amendment process Therefore we the members of Lancaster County Pomona Grange #71 go on record as opposed to calling a constitutional convention

Following the dinner J Robert Reed led in group singing with Mrs Melvin Boyce pianist

Mrs John W Scott gave a brief resume of the highlights of the National Grange convention held Nov 14-22 at Minneapolis, Minn

Richard Maule reported on the new Farm and Home Center which is being built in Lancaster County

Melvin Boyce, Deputy State Master, gave a report, stressing the importance of increasing Grange membership in this centennial year of the National Grange

All Grangers of Lancaster County are invited to a code-reading class at the home of Charles McSparran, Saturday, February 18, 8 p m The class will be followed by a party in charge of the Pomona Grange Youth Committee

The following visitation program was adopted for county Granges

March 13—Fulton host. Salisbury officers opening and closing the meeting and Colerain presenting the program April 3— Salisbury host, Colerain officers and Fulton the program June 20 — Colerain host, Fulton officers and Salisbury the program

Restraints On Farm Credit Are Eased Locally

Carl A Brown, manager of the Federal Land Bank Association and Production Credit Association of 411 West Roseville Road, Lancaster, has announced that both associations have discontinued credit restraints in effect since September, 1966 This action is possible because of the improved national monetary situation, Brown said

"Emphasis will be on making loans for all farm purposes not speculative or tending to be inflationary" Brown stated

He went on to say that this change in credit policy will make it possible for farmers in the area served by the Lancaster Farm Credit office to maintain and increase production of the foodstuffs and other farm commodities necessary to the future well being of the nation and the world.

Conflicting Demands Made On Farm And Forest Lands

An extension wildlife specialist at The Pennsylvania State University has called for closer cooperation between landowners, conservationists, and planning commissions in charting the future development of land and water resources

Citizens from both urban centers and rural areas are placing increasing, and often conflicting, demands on farm and forest land for their benefits, Robert G Wingard, chairman of forestry and wildlife Extension said The same pressures and conflicts apply to the demands on water resources.

"Now that land-use planning is well established throughout Pennsylvania, a new challenge and opportunity exists for sportsmen and conservationists to participate on planning commissions and express their concerns for the quality of the natural environment," the wildlife specialist emphasized.

Ways in which the multitude of land-use changes and adjustments are guided, and the ways pressures on land and water resources are planned and accommodated will determine largely the character of the natural environment in the future he said Projections well into the future show that over 90 percent of the Commonwealth will continue to be in farm and forest use.

Reflecting on present-day developments, Wingard said if only main street and the suburban fringe are considered, it is easy to reach the conclusion that everything is being covered with asphalt and concrete. However, by getting into the countryside, much of the state is literally on the edge of the wilderness with unlimited opportunities for natural resource conservation and development.

The amount of land occupied by all new developments is not nearly as important to the natural environment as the pattern and location of the changes he said. The important thing for sportsmen and conervationists is that there is a choice in where and how changes are located to take advantage of all resource benefits and to avoid excessive waste and disruption of natural processes.

Wingard said many community, township, county, and regional planning commissions are doing an excellent job helping chart a course of land uses and development which will seek a better outcome than has been characteristic of much of the haphazard development of the past

At the Commonwealth level, the State Planning Board is actively engaged in the development of a state recreation plan and other extensive resource planning programs In addition, the massive Susquehanna River Basin Study and plan will have a significant impact on natural resource planning and development.

Organized sportsmen with vital leadership have spearheaded virtually all progressive conservation actions in the Commonwealth since the turn of the century. Their effectiveness and forcefulness was ably demonstrated in recent strip mine and clean stream conservation actions.

Feb. 15th Deadline For New Welding Class At Garden Spot H. S.

An evening arc welding school for farmers in the New Holland area will begin the week of February 20th at the Garden Spot High School The school will be conducted one night a week for five consecutive weeks It is for beginners and others wishing to improve their welding skill

Robert E Elmer, vocational agricultural teacher at the high school will teach welding in various positions, on different kinds of metal, welding cast iron soldering, cutting and brazing with an arc welder Everyone who attends all five sessions will receive a certified diploma A fee of $5 will be charged for the course, and all materials needed for the course will be supplied free of charge

The course is based on instruction developed by the Lincoln Electric Company, manufacturers of arc welding equipment Lincoln has been conducting welding schools since 1917 The Farmersville Equipment Company will sponsor and supervise the course

The welding school will be limited to twenty-five persons, on a first come-first served basis Any person interested in the course is requested to contact the agriculture department of the Garden Spot High School by February 15
